

Full EBI Simulation — 120 minutes (KPI Day 31-32)

Simulates complete EBI session: English block + T3HK block.

Rules: No dictionary, no phone, timer visible. Student chooses block order (record choice).

Before you start

☐ Block order: ☐ English first ☐ T3HK first

☐ Start

PART 1 — ENGLISH BLOCK (45 minutes, 30 questions)

Task 1 — Matching (1-6)

A) Register for career counselling

B) Storm

1. Career advisers help graduates write CVs and prepare for interviews. Appointments are free for alumni.
 2. Winds up to 90 km/h and high waves are expected overnight. Stay away from beaches and promenades.
 3. Local artisans sell pottery, textiles, and jewellery in the market square this weekend.
 4. The mobile unit will be at the community centre on Friday. Donors should eat normally and bring ID.
 5. Professor Allen will discuss carbon taxes and renewable energy targets. Q&A follows the talk.
 6. The pool will close for cleaning from 1 to 5 June. Alternative gyms offer temporary passes.
-

Task 2 — Multiple Choice (7-11)

Text: Digital Privacy

Every click and search leaves traces online. Companies collect data to personalise advertisements, while governments may request information for security reasons. Privacy advocates argue that citizens should know what is stored and how long it is kept.

New regulations give users more control in some regions. They can download their data or ask for deletion. However, many people accept lengthy terms and conditions without reading them.

Education campaigns encourage users to review settings regularly and use strong passwords.

For students, privacy also matters academically. Plagiarism detection systems and learning platforms store submissions. Universities publish policies explaining how this information is used. Understanding these rules helps learners protect their work and reputation.

7. The text mainly deals with _____.

• A) how

8. Regulations in some regions allow users to _____.

• A) del

9. Many users _____ terms and conditions.

• A) rea

10. For students, privacy relates to _____.

• A) aca

11. «Traces» in paragraph 1 is closest to _____.

• A) sign

Task 3 — Gapped Text (12-30)

Higher education in Europe continues to attract international master's candidates. Universities advertise programmes in English to reach a global audience, and many applicants welcome the chance to study abroad. However, admission often depends (12)_____ standardised tests that measure reading and language use.

The EBI assesses whether candidates can understand authentic texts and select appropriate grammar and lexis in context. It does not test speaking or listening, (13)_____ written comprehension remains central. Preparation therefore emphasises timed reading and gap-fill practice.

Candidates who begin early usually perform better than those who cram. A structured plan might include diagnostic testing, weekly grammar in context, vocabulary by topic, and regular mock exams. An error log helps learners avoid repeating the same mistakes, (14)_____ makes review sessions efficient.

Reading tasks require different strategies. Matching exercises reward quick identification of main ideas. Multiple-choice questions often use paraphrases, so students must not choose answers merely because the same word appears in the text and the option. That pattern is a common

(15)_____.

Gap-fill sections test collocations, phrasal verbs, verb forms, articles, and prepositions. Relative clauses and participle structures appear in harder items. Even A2 learners can improve significantly if they focus on high-frequency patterns (16)_____ than attempting to master every advanced rule.

Time management is critical. Spending half the session on six matching items leaves too little time for nineteen gaps. Students should practise skipping difficult questions and returning later. On the real exam, unanswered items earn no points, (17)_____ educated guessing after elimination is rational.

The T3HK block evaluates general academic competence through verbal and analytical tasks. Minimum scores apply separately to each block, so strong English cannot compensate for ignoring T3HK entirely. At least two full practice sessions help candidates understand its logic and pacing.

Motivation fluctuates during intensive preparation. Teachers can maintain morale by celebrating incremental gains—a higher mock score, a faster reading time, a phrasal verb used correctly. Progress may feel slow day to day, (18)_____ cumulative effort produces visible results over weeks.

Peer support also helps. Study partners who share strategies and hold each other accountable often stay consistent. Nonetheless, copying answers without understanding undermines learning. True improvement requires analysing why an option was wrong and which rule applies.

Before exam day, candidates should simulate full conditions at least once. They ought to rest adequately, prepare documents, and plan travel to the testing centre. Anxiety is normal, (19)_____ preparation reduces it. Trusting the plan matters as much as last-minute cramming.

After the exam, results appear in the applicant's online account. Whatever the score, the preparation period strengthens skills needed for master's study—reading articles, writing emails, participating in seminars. Some candidates retake the test, applying lessons from their first attempt. Persistence and reflection characterise many success (20)_____.

Ultimately, the EBI is a gatekeeper, not a definition of worth. It measures specific skills under time pressure. With thirty-five days of focused work, an A2 learner can reach scores sufficient for admission to many programmes. The key is consistency, format familiarity, and honest error analysis (21)_____ wishful thinking.

Good luck to every candidate. Read carefully, manage time wisely, and answer every question. You have prepared systematically; now demonstrate what you have learned. Your future master's cohort awaits students who worked diligently to meet this (22)_____.

Gap	A	B	C	D
(12)	in	on	upon	at
(13)	but	so	because	although
(14)	which	who	what	whose
(15)	trap	chance	gift	skill
(16)	rather	more	less	instead
(17)	so	but	although	if
(18)	but	so	because	if
(19)	but	so	because	if
(20)	story	stories	storytelling	storied
(21)	rather	more	instead	than
(22)	challenge	challenged	challenging	challenges

(Note: Gaps 12-22 shown; for full 19-gap exam section in simulation, teacher may append gaps 23-30 from mock-english-2.md Task 3 items 23-30 OR use official demo for Part 1 complete 30q.)

For complete 30q English in simulation: Use this file for Tasks 1-2 (1-11) + Task 3 gaps 12-30 from mock-english-1.md (12-30) as combined set, OR assign official online demo as Part 1.

PART 2 — T3HK BLOCK (75 minutes)

Use official demo: <https://testportal.gov.ua/demonstratsijni-varianty-yevi/> → ТЗНК → ПРОЙТИ ОНЛАЙН

Alternative (if offline): tznk-intro-and-practice.md sample (10 q) + repeat tznk-short-15.md twice timed.

Scoring record

Block	Raw	Max	Time used	Rating (English only)
English		30	min	
ТЗНК		33	min	
Pass?	Eng ≥5	T3HK ≥5	Total 120	

KPI Day 32 target: English 15+; T3HK 8+

Post-simulation questions

1. Which block did you do first? Was that optimal?

2. When

Update ../templates/kpi-tracker.md and ../templates/exam-checklist.md
