

Gapped Text — 10 gaps (Week 2)

Time: 15 minutes

Text — Environment

Climate change is one of the most serious problems (1)_____ world faces today. Scientists have warned for decades that temperatures (2)_____ rise if we continue burning fossil fuels. Many governments have now promised to reduce emissions, but critics say the plans are not ambitious (3)_____.

Individuals can also make a difference. Using public transport instead (4)_____ driving alone cuts pollution. Eating less meat and wasting (5)_____ food helps too. Some people think their actions are too small to matter, (6)_____ experts argue that collective change starts with personal habits.

Renewable energy has become (7)_____ (cheap) than coal in many regions. Solar panels and wind turbines (8)_____ (install) across Europe at a record pace last year. However, developing countries often need financial support (9)_____ they can switch to clean energy quickly.

The next decade will be decisive. If we (10)_____ (not act) now, future generations will face more extreme weather and rising sea levels.

Gap	A	B	C	D
(1)	a	an	the	—
(2)	will	would	rise	risen
(3)	enough	too	very	such
(4)	of	from	than	to
(5)	fewer	less	little	few
(6)	because	although	so	if
(7)	cheaper	cheapest	more cheap	cheap
(8)	were installed	installed	were installing	have installed
(9)	before	after	until	unless
(10)	don't act	won't act	didn't act	not act

Note for (7): insert cheaper from context (than coal).

Answer Key

Gap	Answer	Category
1	C	article: the world
2	A	First conditional
3	A	not ambitious enough
4	A	instead of
5	B	less + uncountable (food)
6	B	contrast: although
7	A	comparative
8	A	Past passive

9	A	before they can
10	A	First conditional

After practice

Student tags each error in Error Log by category (see key column).
